

EQUUS BEDS GROUNDWATER MANAGEMENT DISTRICT NO. 2

313 Spruce Street
Halstead, Kansas 67056-1925
(316) 835-2224

**FORM CP-15
APPLICATION FOR PERMIT TO DRILL AND CONSTRUCT
AN UNCASSED CATHODIC PROTECTION BOREHOLE**

Permit Application Number CPB-_____

To the Equus Beds Groundwater Management District No. 2:

Comes now the applicant _____
whose address is:

(P.O. Box or Street) (City) (State) (Zip Code)

(Area Code) (Telephone)

and makes application to the Equus Beds Groundwater Management District No. 2 for a permit to drill and construct a cathodic protection borehole in and through the Equus Beds aquifer in the county of _____ state of Kansas, to the extent and in accordance with the following:

1. The location of the proposed cathodic protection borehole is in the _____ quarter of the _____ quarter of the _____ quarter of Section _____, Township _____ south, Range _____ (west/east) and more particularly described as being near a point _____ feet north and _____ feet west of the apparent southeast corner of said section.
2. The proposed use of the cathodic protection borehole is to provide cathodic protection of the applicant's _____ facility from electrochemical corrosion.
3. The land surface elevation is _____ feet above mean sea level and the method of measurement used was (a) surveyed, (b) topographic map or (c) other _____.
4. The depth to surface or top of bedrock or shale is _____ feet below land surface.
5. The depth to the water table of the fresh water aquifer is _____ feet below land surface.
6. Aquifer salinity as indicated by chloride concentration is _____ mg/L and was determined by: (a) published report, (b) test well data, or (c) other _____.
7. The total depth of the cathodic protection borehole will not penetrate the bedrock surface and will be completed _____ feet below land surface.
8. The diameter of the uncased cathodic protection borehole will be a minimum of _____ inches.

9. Non toxic anodes that meet or exceed the American Water Works Association standards for use in public water supply systems will be installed beginning at a depth of _____ feet below land surface to a total depth of _____ feet below land surface.
10. Anode conductor grout, that is certified by the National Sanitation Foundation to meet the American National Standards Institute Standard 60 for use in drinking water treatment chemicals will be installed beginning at a depth of _____ feet below land surface to a total depth of _____ feet below land surface.
11. The uncased borehole from the top of the anode conductor grout will be grouted with: (a) neat cement, (b) cement, (c) bentonite clay grout, (d) bentonite cement, or (e) other _____, from a total depth of _____ feet below land surface to _____ feet below land surface.
12. The grouted uncased borehole will be backfilled with clean compacted topsoil from _____ feet below land surface to _____ feet above land surface.
13. Will the use of a drilling pit threaten to contaminate fresh and usable groundwater? _____ Yes _____ No. If Yes complete sections (a) and (b). Circle one: (a) the pit will be: (i) constructed so that the bottom and sides have a hydraulic conductivity no greater than 1×10^{-7} cm/sec., (ii) constructed above ground, or (iii) a portable above ground tank, and (b) the applicant has submitted a surface pond application to the Director, Conservation Division, Kansas Corporation Commission. _____ Yes _____ No.
14. A construction plan is submitted with the application and shows or illustrates the information contained in paragraphs #4 through #12.
15. The cathodic protection borehole will be abandoned and plugged if it: (a) is not completed due to unforeseen circumstances, (b) either contaminates or threatens to contaminate a fresh water aquifer, (c) encounters uncontrollable artesian flow, (d) has exhausted its anodes and replacement anodes are not installed within one year, or (e) has not been used for one year and the applicant does not demonstrate intentions to use it.
16. The applicant understands and is aware that the Equus Beds Groundwater Management District No. 2 has adopted a regulation that establishes minimum standards to drill, construct and abandon cathodic protection boreholes and agrees to comply with the adopted regulation. Further, the applicant may, pursuant to District policy D.S.P. 9007.1, appeal these regulations and request a waiver of an adopted regulation.
17. Dated at _____, Kansas, this _____ day of _____, 20____
